PROFESSIONAL SUMMARY

Web Developer with 1+ year of professional experience in application support, end-user support, system monitoring, and enterprise software testing. Skilled in PHP Laravel, WordPress, Figma, Adobe XD, and Sketch. Demonstrated ability to maintain uptime, resolve incidents efficiently, and execute deployments aligned with Data Center standards. Proven ability to build user-friendly, secure, scalable, and reliable websites that support digital transformation and ensure business continuity for government and enterprise environments.

PROFESSIONAL EXPERIENCE

Digital Konnecter System (DKS) **(Junior Web Developer)**

DHA Rahbar Block B, Lahore, PK
(Aug 2024-Present)

- Currently serving as a Web Developer at DKS, delivering secure, scalable, and user-friendly web applications for internal and client-facing projects.
- Provide continuous application support and ensure smooth operations for multiple web-based systems.
- Troubleshoot backend and frontend issues, optimize performance, and resolve bugs with minimal downtime.
- Implement automated backup workflows and maintain application reliability across development and production environments.
- Work closely with cross-functional teams, including developers, DevOps, and vendors, to deploy updates and implement new features.
- Assist in deployment processes, server configuration, and environment setup to support stable releases.
- Mentor junior developers by reviewing code, guiding troubleshooting efforts, and supporting best development practices.

Off Desk Company (Call Center) **(Dialer)**

Johar Town, Lahore, PK
(June 2024-August 2023)

- Worked as a Dialer at Off Desk Company, handling outbound calls for the Mobility campaign while consistently meeting targets and ensuring customer satisfaction.
